## 22. Suggestions for further improvement

- c. The curriculum should be revised accordingly as the emerging fields in Science and Technology
- d. Curriculum should be structured in such a way that it should help the students acquire fundamentals of their subject and also make them enjoy it.

## Feedback Analysis Report

As for the curriculum, the teachers are largely satisfied with the overall structure. General opinion is that the curriculum has a timely updation with inclusion of recent advancements in the subject. Mostly the teachers consider the allotted time period for the completion of the topics as adequate and that the curriculum is sufficiently good enough to instil interest in students by giving a detailed subject knowledge in all aspects and encourages them for higher studies by providing subject related skill training. In terms of developing social and professional ethics in students, a divided opinion exists. Hence the present curriculum is satisfactory with scope for betterment in certain aspects.
